DETAILED ACTION

In the last office action, claims 26-28 and 54-56 were inadvertently categorized as part of group II. These claims must be included into group I, which has not been elected by the applicant. Therefore, the identified claims are excluded from further examination.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 16 and 44 are rejected under 35 U.S.C. 102(e) as being anticipated by Guillemín et al. (US 2003/0086721).

Regarding claims 16 and 44 Guillemín discloses an imaging system, comprising:
an optical character recognition (OCR) engine for receiving at least a portion of image data, the OCR engine configured to perform OCR processing only on data corresponding to at least a portion of a border region of each imaged page; and a controller in communication with

the OCR engine and configured to receive data from the OCR engine to determine page numbers on the pages being imaged based at least in part on the data received from the OCR engine, the controller being further configured to detect an error based on the page numbers (paragraphs [0052 and 0056]).

Allowable Subject Matter

3. Claims 17-25 and 44-53 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
